

The Darwin FlyRodders is Darwin's Premier Fly Fishing Club organising outings, competitions and other events for fly fishing enthusiasts throughout the Top End with the aim to promote, foster and encourage the sport of Fly fishing, Fly tying and Fly casting within the Northern Territory Community. Our Club has been established for some years now and has just launched a new website.

It has been for some years now suggested that we link to other clubs so that traveling members can visit your club meetings if they are in town and vice versa should your members visit Darwin. We have over the years had visits from many traveling fly fishing devotees who have attended our monthly meetings, fished our competitions or just saught a deckies spot for a day's fishing our pristine freshwater billabongs for Barramundi and Saratoga and our saltwater for Barramundi, Mackerel, Thread and Blue Salmon, Queenfish, Trevally, Northern Longtail Tuna, Snapper and Tarpon just to name a few.

Over time it would be good to see all our respective clubs exchanging information, links and reciprocal visits and fishing outings around Australia.
